

AMN Healthcare Language Services Strategic Partnership Solutions (SPS)

Section 1557 Four Years Later - Is Your Organization Compliant?

Strategic Partnership Solutions (SPS) by AMN Healthcare Language Services serves as a vital ally for healthcare organizations, enhancing accessibility and communication for Limited English Proficient (LEP) and deaf and hard of hearing patients. With our innovative, technologically backed solutions, we go beyond regulatory compliance, prompting healthcare providers to recognize and leverage the advantage of quality care in improving health outcomes and financial performance.

How It Works

AMN Language Services SPS will partner with health systems and organizations to take on the operational responsibility as an in-house Language Service department. Through the offering, an organization can gain access to a range of core language services, including Video Remote Interpreting (VRI), Over-the-Phone Interpreting (OPI), In-Person interpreting, and translation. In addition, SPS will offer wraparound services and solutions tailored to the specific needs of each organization, determined through a thorough analysis and evaluation of their language access program.

With AMN Healthcare Language Services SPS, healthcare organizations can enhance patient outcomes, amplify efficiency, and improve margins, while ensuring compliance with Section 1557 and attaining strategic objectives.

FOUR KEYS TO A TRANSFORMATIONAL PARTNERSHIP

Industry Expertise

You can rely on the industry's leading experts to unleash your business potential. Leverage the vast experience of our staff to optimize health outcomes, operational efficiencies, and financial performance.

Innovative Technology

Access our robust technology infrastructure and data analytics tools to manage your operations and provide real-time data to track performance and identify areas for improvement. Enhance your capabilities and approach your work with the confidence that comes with transparency.

Operational Excellence

Our dedicated Solution Delivery Team will integrate with your language services so you can focus on providing exceptional care. Ensure optimized processes and workflows to maintain regulatory compliance and maximize reimbursements.

Strategic Partners

Our goal is to make healthcare more accessible, human, and effective. We do this by forging transformational partnerships, pooling shared knowledge, and implementing best practices from our extensive client base. Our end-to-end quality solutions are powered by innovative technology and a robust operational infrastructure, bolstering organization operating margins, elevating patient experience, and enhancing quality.

Mission Focused, Results Oriented

In cooperation with internal stakeholders and community organizations, we guide LEP patients to the appropriate care. SPS offers a comprehensive solution delivery model, equipping your organization with the resources and expertise of a dedicated language access team. This program aligns perfectly with your mission, values, and strategic objectives.

We understand the unique needs of healthcare organizations and have the tools, infrastructure, and expertise to meet them. By partnering with AMN Language Services SPS, you can simplify the complexities of language services and provide exceptional care to all.
